John Staruch named Vice President Business Development at Batching Systems, Inc.

PRINCE FREDERICK, MD -- May 17, 2011— In response to Batching Systems, Inc. continued growth, Donald Wooldridge, President and CEO, has named John Staruch to the position of Vice President, Business Development. Staruch joins Batching Systems, Inc. from executive management positions at Bosch Packaging Technology and HayssenSandiacre as well as his own consulting business.

“We will expand the pursuit of market opportunities for our new range of filling solutions to a global customer base,” Wooldridge stated. The timing of John’s enlistment at Batching Systems, Inc. correlates directly with the company’s focus on growth. “With some 30 years of experience in world-class organizations in the packaging industry and his professional attributes we are confident in the contributions he will make toward achieving our global business objectives.”

John Staruch commented by saying, “I believe that my industry and customer experiences will significantly help Batching Systems, Inc. increase market share across a number of industry segments. The unique value propositions our state-of-the-art product range affords to end-users provide the basis for meeting market demands as well as our growth targets.”

Batching Systems, Inc. (BSI) is a recognized leader in volumetric weighing, counting, batching and filling technology. Founded in 1989, the Company remains privately owned and continues to provide high technology filling and packaging solutions to the industrial, food, and medical industries. BSI systems are highly engineered and rugged offering reliability and precision filling accuracy while at the same time providing maximum operational flexibility.

“Much More than Counting!”
